THREE ROBBERIES REPORTED. Money Stolen in Two Cases, and a Watch Missing.

The police were advised last night of three robberies, as follows:

Street northwest, reports that a purse containing \$20 in cash was taken from her pocket while she was attending service at \$1. Paul's Church Sunday night. No suspect is given in this case and the police apparently have nothing to lead them in an investigation of the theft.

George W. Fowler, of 29 Harrison Street, Anacostia, discovered last night, while about to close his store, that \$55 had been taken from the money drawer. This money was stolen, according to Mr. Fowler, during the forenoen, but for some unknown reason was not immediately missed. A number of persons were in and about the store during the day, but no clue to the thief has yet developed.

Mrs. Agness Clowe, of 122 Tenth Street northwest, visited Hendquarters yesterday and reported that some unknown person had robbed her of a gold watch worth \$50. The watch was stolen from her home within the past few days. Its wacreption has been sent to pawn shops, and second-hand dealers by the detectives.

### AFFAIRS OF THE DISTRICT.

The Rights of Hucksters in the O Street Market.

Opinion of the Attorney Asked Upon an Old Grievance of the Farmers-Seventeen-Year-Old Boy in House of Detention-The Steventon Case

dressed the Commissioners calling attention to the occupation, by hucksters, o

statement:

"It appears that for years a class of truck gardeners and unlicensed produce dealers, who do not raise all of their own produce, but buy at the wholesale market a great amount of country produce, offer it for sale at the O Street market as their own raising. At times they are able to undersell the legitimate country people and to have produce on their stands which is too early for our nearby farmers to grow. They represent to the marketmaster that they are country people and entitled to a stund at the market as such. "It appears to me that if the market-master would enquire into these cases, when there is a doubt about their being legitimate, it would reduce this class of people to a minimum. The law relative to unlicensed produce dealers makes it very hard at times to obtain evidence against them. We have to prove that the produce is bought, and from whom, and that two sales are made of this produce. These people are aware of the law and are very careful. Some go so far as to drive out into Virginia or Maryland and buy from farmers on their way to the wholesale market, making it almost impossible to get witnesses to the sule, as these farmers do not care to lose time in

attending court.
"I have procured warrants against several of them as unificensed produce dealers. I have one case pending and it will be continued, as I am unable to get the evidence to proscoute them."

Major Sylvester, in forwarding this statement to the Commissioners, recommends that persons controlling the mar-ket be requested to refuse a stand to all persons who may offer produce for sale in advance of the season and to those they suspect of forestalling the market, and then have the police make such investigation of their cases as may be warranted, with a view to establishing whether the market privilege should not b taken from them. In view of the difficul-ties encountered in securing convictions under the law it seems to me that this method might, in a great measure, break up the practice which prevails in all the markets.

Detention several days and was then reboy is said to belong in Chicago and was arrested here charged with vagrancy.

Major Sylvester, in forwarding the re-

port to the Commissioners for their in-formation, suid: "Under the law for the creation and maintenance of the House of Detention, males are contined therein of sixteen years of age and younger. There is another law relative to the Board of Children's Guardians, which leaves it in the

other law relative to the Board of Children's Guardians, which leaves it in the discretion of the court as to what alsoposition shall be made of males seventeen years of age, other than seading them to the jail or workhouse.

"This boy was over a venteen years old, and I would be pleased to be advised whether the House of Detention should be made the temporary abode of boys over seventeen years of age for an extended time, as in this instance.

"If this institution is to take the place of a stationhease, without the disagreeable features that attian thereto, for the confinement of boys state nyairs of age and under, and of females in the discretion of the Commissioners, as the law rads, it reems to me that it is fulfilling the intention of those who established it, but if males over the age prescribed, or bordering on fall-fledged mathroad, are to be maintained here an unlimited league of time, it occurs to me that it is somewhat of a departure from the correct prisciple.

Commissioner Ross, who has supervision over the Police Department, in submitting the matter, to his associates has recommended that the papers in the case be forwarded to the Hoard of Charities for their consideration and report.
